Education

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA
Bachelor of Computer Science, GPA: 3.59/4.0

Yogyakarta, Indonesia
Sept. 2021 - July 2025

Technical Skills

Languages: JavaScript, TypeScript, PHP
Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, Laravel, REST APIs
Databases: MySQL, PostgreSQL
Developer Tools: Git, GitHub, GitLab, Prisma ORM, Supabase, Postman, Jest

Relevant Experience

TELKOM INDONESIA

South Jakarta, Indonesia

Front-End Developer Intern

Nov 2025 – May 2026

- Developed and maintained React features across 4 production repositories, including dashboards, CBT modules, administrative portals, and a responsive maintenance page, integrating REST APIs and Jest unit tests.
- Completed 10 development tasks through 11 GitLab merge requests, including a production-ready maintenance page, dashboard redesign, CBT module enhancements, and terminology updates across administrator and teacher portals ahead of release.
- Collaborated with developers, designers, and product teams through Agile Scrum and GitLab workflows, earning the Best Mentee Award in Kemnaker RI's National Internship Program Batch 2.

PT. RAZEN TEKNOLOGI INDONESIA

Yogyakarta, Indonesia

Front-End Developer Intern

Oct 2024 – Dec 2024

- Developed 38 responsive web pages across 42 frontend views using Laravel Blade, JavaScript, and Tailwind CSS, translating UI/UX designs and business requirements into functional interfaces.
- Collaborated with backend developers through a shared repository workflow to deliver an end-to-end internal web application prototype using the Waterfall development process.

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Yogyakarta, Indonesia

Teaching Fellow, Cybersecurity

Feb 2024 – Jul 2024

- Supported cybersecurity laboratory sessions for 70+ students, providing technical assistance during practical exercises and contributing to assessment and course administration.

Projects

IELTS Typing Arena

- Built an interactive IELTS typing platform using React, Vite, Tailwind CSS, Web Audio API, and Text-to-Speech, featuring real-time WPM/accuracy analytics, dictionary lookup, and personalized review.
- Automated the generation and categorization of 4,285 IELTS vocabulary entries from CEFR-J and Octanove datasets, covering vocabulary levels approximately equivalent to IELTS Band 6.0–8.0+.

D.ELOiSE Pre-Order System

- Developed a full-stack pre-order platform using Next.js, Express.js, Prisma ORM, PostgreSQL, and Midtrans Snap, replacing Google Form-based ordering with a structured multi-step checkout workflow.
- Engineered transactional stock control to prevent race conditions, JWT-protected administration, and Midtrans webhooks for automated payment synchronization and real-time product availability.

Me-IQRA Tahfidz Learning Management System

- Developed a Laravel-based role-based learning management system to digitize paper-based Tahfidz assessment workflows, covering memorization submissions, scoring, assessment history, and reporting.
- Designed relational data models and role-based access control for students, teachers, and administrators, centralizing previously fragmented memorization and assessment records into a single system.
