Education

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Bachelor of Computer Science, GPA: 3.59/4.0

Yogyakarta, Indonesia

Sept. 2021 - July 2025

Technical Skills & Projects

Languages: JavaScript, TypeScript, PHP

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, Laravel

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub, GitLab, Prisma ORM, Supabase, Postman, Jest, Figma

IELTS Typing Arena

- Developed an interactive typing practice platform that combines touch typing training with IELTS academic vocabulary learning using React, Vite, and Tailwind CSS.
- Built a three-page application featuring real-time typing analytics, personalized review mode, dictionary lookup, Text-to-Speech, and Web Audio API integration, while automating the generation and categorization of 4,285 IELTS vocabulary words from CEFR-J and Octanove datasets.
- Enhanced typing fluency and vocabulary retention by combining typing practice, pronunciation support, and personalized review into a single interactive learning experience covering IELTS Band 6.0–8.0+ vocabulary.

D.ELOiSE Pre-Order System

- Developed a full-stack pre-order platform for a creative merchandise store using Next.js, Express.js, Prisma ORM, Supabase PostgreSQL, and Midtrans Snap, replacing Google Form-based ordering with a structured multi-step checkout flow.
- Designed a relational database with transactional stock control to prevent race conditions, implemented JWT-protected administration with Supabase Auth, and integrated Midtrans webhooks for automated payment synchronization and real-time product availability tracking.
- Streamlined the pre-order management workflow by centralizing product, batch, order, and payment management into a secure web application with automated inventory and payment processing.

Me-IQRA Tahfidz Learning Management System

- Designed and developed a role-based web application using Laravel to digitize Tahfidz memorization assessments, replacing manual paper-based evaluation workflows.
- Implemented end-to-end features including memorization submission, assessment, scoring, reporting, role-based access control, and a relational database for managing student records and assessment history.
- Reduced manual assessment workflows through centralized digital record management. The system was adopted for a lecturer-led funded research initiative and prepared for implementation at a partner junior high school.

Relevant Experience

TELKOM INDONESIA

South Jakarta, Indonesia

Front-End Developer Intern

Nov 2025 – May 2026

- Built and maintained frontend features across four production React repositories, developing dashboards, CBT modules, administrative portals, and a responsive maintenance page while integrating REST APIs and writing Jest unit tests.
- Delivered 10 development tasks through 11 merged merge requests, including a production-ready maintenance page, dashboard redesign, CBT module enhancements, and terminology updates across administrator and teacher portals ahead of release.
- Collaborated with developers, designers, and product teams in an Agile Scrum environment to deliver responsive and maintainable frontend solutions. Recognized as Best Mentee in the National Internship Program Kemnaker RI Batch 2 for outstanding performance.

PT. RAZEN TEKNOLOGI INDONESIA

Yogyakarta, Indonesia

Front-End Developer Intern

Oct 2024 – Dec 2024

- Developed responsive frontend interfaces using Laravel, Blade, JavaScript, and Tailwind CSS by translating UI/UX designs and business requirements into functional web pages through a Waterfall development process.
- Implemented 38 responsive web pages across 42 frontend views for an internal web application prototype, collaborating with backend developers through a shared repository workflow.
- Contributed to the completion of an end-to-end web application prototype by delivering maintainable frontend implementations and collaborating effectively within a multidisciplinary development team.

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Yogyakarta, Indonesia

Teaching Fellow, Cybersecurity

Feb 2024 – Jul 2024

- Assisted the lecturer in delivering cybersecurity lab sessions for over 70 students, providing technical support during practical exercises.
- Supported grading activities and attendance tracking throughout the semester.

Certifications

Web Developer (BNSP) | Badan Nasional Sertifikasi Profesi (BNSP)

2025

Microsoft Office Specialist (MOS): Excel 2019 Associate | Microsoft

2025

Awards
